2. INSTALLATION

Installation inside only.
Be sure to be in accordance with the electrical installation and earthing procedures.

To be used with Arteor or Mosaic wiring devices. Please add the accessory soluclip nr 0 756 90 only for snap-on columns nr 6 530 30 & 6 530 33.

Power supply via cable.
Be sure to respect the mini cable length or sheath from the bottom of the column.

Electricity can be supplied through the floor, via ceiling or via raised floor/over floor trunking.

Installation compatible with over floor trunking 50x12 number 0 300 92 and 75x18 numbers 0 300 88/90/91/93 and 92x20 numbers 0 328 00

Except movable columns (nr 6 530 06/07/08/26/27/28), be sure to be in accordance with the columns fixation. In order to get a safe and lasting installation, columns have to be screwed on the floor via the plate.

5. ACCESSORIES

5.1 Junction for false ceiling nr 6 530 76 for movable columns

This junction allows one perfect finishing of the connection between the column and the false ceiling. In order to get a perfect integration, it is necessary to make a hole in the false ceiling.

Material: ABS and PETG

5.2 Finishing kit for telescopic pole for 1 or 2 compartments columns nr 6 530 66/67/68

This kit allows an aesthetic finishing of telescopic pole, of the cable leading down and its height adjustment at the top of the column.

Consists of 2 PVC covers and a base

3 Colours:
6 530 66 white finish
6 530 67 grey finish
6 530 68 black finish

Material:
- covers: PVC
- base: ABS
5. ACCESSORIES (CONT.)

5.3 Flexible Ovaline kit nr 6 530 56 for telescopic pole finishing kit

This 1 m length accessory allows one aesthetic horizontal connection between the column and cable trays. To fix on the column.

Material:
- Flexible Ovaline: Polypropylène
- Connection accessories: ABS

5.4 Separation partition nr 6 038 07

For 2 and 4 compartments snap-on mini-columns. It allows the separation in a same compartment, between power and data cables.

5.5 Supports for rail equipment

For mounting equipment (such as MCBs) on mini-columns. To be used with two 0.5 module spacing units cat. Nr 4 063 07
Capacity: 1 module
Equipped with protective cover to prevent unwanted triggering

Material: ABS (back part) + PC (front part)

5.6 90° Adaptor nr 6 530 079
Adaptor for mounting Arteor or Mosaic wiring accessories horizontally via 90° rotation
2 modules
5. ACCESSORIES (CONT.)

5.7 Support for fixing TV

5.7.1 Support nr 6 530 81 for fixing TV 10-26 inch /25-66 cm (VESA 75x75 – 100x100)

Allowed maximum weight : 15 kgs
Material : Metal

5.7.2 Support nr 6 530 82 for fixing TV 26-42 inch/66-107 cm (VESA 200x100 – 200x200)

Lateral orientation : 45° right – 45° left
Top and down : 15°

Allowed maximum weight : 30 kgs
Material : Metal

5.8 Panel indicator nr 6 530 80

This simple and aesthetic accessory allows you to slide in any information.

Attention !! This accessory is not made for replacing one urgence emergency lighting luminaire and should not be considered as one.

Panel indicator dimension : 150 x 150 mm
Material : Alu + glass

5.9 White shelf nr 6 530 83

Dimensions : 380 x 300 x 12 mm
Allowed maximum weight : 15 kg
Material :
- shelf = Corian® (cf §6.1)
- mounting bracket = steel

5.10 Earth link nr 0 111 88

Allows earth link for the mini-columns (20 pcs/nr)

Technical data sheet: F02560EN/03
Updated : 17/10/2019

6. CORIAN

6.1. Characteristics

Short Form Classification Report No. 16893B

PRODUCT
DuPont Corian® Solid Surface

SPONSOR
DuPont De Nemours (Belgium) BVBA

PRODUCT DETAILS
- Thickness: Between 6 mm and 12.3 mm (± 0.7 mm)
- Density: Between 1645 kg/m³ and 1770 kg/m³
- Colour/pattern: Any colour variation allowed
- Use of fire retardants: No
- Product composition: No variation allowed
- Product construction: No variation allowed

FIELD OF APPLICATION
- Construction applications used on any substrate with a density equal to or greater than 800 kg/m³, having a minimum thickness of 12.5 mm and a fire performance of A2 or better.
- Product installed utilizing Corian® silicone sealant only

For and on behalf of WFRGENT nv

This short form classification report has been drafted according to EGFOLF agreement EGA 06ENV2013 "Application note classe 5.10 [5.10/1] - Types of test reports used in fire testing". Whilst the test data and classification provided within this short form report was obtained in a test conducted fully in accordance with the standards EN ISO 11925-2:2002, EN 13823:2002 and EN 13501-1:2007, the presentation of the results in this short form report may not satisfy the requirements of those standards and EN ISO9001:2008. The presentation of the results in this manner is made by agreement with the sponsor and use of the information herein for product assessment, approval or certification purposes will be restricted. The full classification report No. 188122 (issue 4) is available at DuPont De Nemours (Belgium) BVBA.

This document is the original version of this report and is written in English. This document may be used only literally and completely for publications. For publications of certain tests, in which this document is mentioned, our permission must be obtained in advance. The authenticity of the electronic signatures is assured by IsiSign Host CA.

6.2. Cleaning

**ENGLISH**

---

**Caring for DuPont™ Corian®**

DuPont™ Corian® was created for a lifetime of easy care. Just follow the simple guidelines listed here to help keep your Corian® surfaces looking beautiful.

**Routine care of your Corian® surface**

For everyday cleaning, use soapy water or widely available surface cleaners. Remove excess detergent with a soft cloth, rinse surface with warm water and dry with a soft cloth. If necessary use a microfibre cloth and rub over the surface with an ammonia based cleaner, then rinse with water. This procedure will remove most dirt and residue from your Corian® surfaces. Always clean using a circular motion, from the front to the back, then side to side, overlapping the circles until the entire area has been cleaned. Do not use abrasive or mild abrasive cleaners on high gloss or dark surfaces. Be aware that limescale can build up if water is left to dry on the surface.

To prevent this, it is important to wipe the surface completely dry with a microfibre cloth after spills and cleaning. Some colours of Corian® may require more frequent cleaning to maintain a uniform finish.

**Special care for stubborn stains**

Residues from stubborn stains may require heavier cleaning. Follow the recommendations below to clean these specific stains from your Corian® surface and shapes effectively.

- **Vinegar, coffee, tea, lemon juice, vegetable juice, dyes, ketchup, Lily pollen, saffron, light scratches, cigarette burns, shoe polish, ink, marker pen, iodine, mildew, mercuriochrome, blood, red wine, perfumes:** Use a damp microfibre cloth and a mild abrasive cleaning product (except on high gloss or dark surfaces).

- **Grease, fat and oil residues:** Use a microfibre cloth and rub over the stain with some diluted bleach. Rinse several times with warm water and dry with a soft cloth.

- **Hard water scale, soap, minerals:** Use a microfibre cloth and rub over the stain with a standard household limescale remover or vinegar and leave for 2-4 minutes. Using a second clean microfibre cloth, rinse the area thoroughly with water.

- **Nail varnish spills:** Use a microfibre cloth and rub over the stain with a non-acetone based nail varnish remover. Rinse several times with warm water and dry with a soft cloth.

If the stain is still visible, repeat the operation, this time using very fine-grain sanding paper. If the stain persists, contact our Warranty Centre.

**How to prevent permanent damage**

Be sure to follow these guidelines to help prevent permanent damage to your Corian® installation.

Avoid getting strong chemicals – eg paint removers, oven cleaners, acid drain cleaners, acetone based nail varnish removers etc. – on your surface. If a spill does occur, promptly flush the surface with water to fully rinse off the chemical.

Do not clean using aggressive chemical agents such as acetone, oven cleaners, thinners, strong acids (nuric acid etc) or strong bases (caustic soda etc), or industrial detergents or paint solvents.

If a spill does occur, promptly flush the surface with water to fully rinse off the chemical.

Do not use metal scrapers, iron brushes or other metal tools to remove stains, paints, plaster or other substances.

In the case of severe damage, please contact the DuPont™ Corian® Warranty Centre, which will put you in touch with a local DuPont™ Corian® Quality Network Industrial Partner or Service Centre for professional re-sanding or repairing of your DuPont™ Corian® installation. DuPont™ Corian® Quality Network Service Centres are certified by DuPont to carry out expert repair and finishing work. They can also handle installation work and offer maintenance contracts to commercial customers to maintain DuPont™ Corian® installations in prime condition.

**Kitchen applications**

**SPECIAL CARE FOR SINKS**

Remove all the fat and oil residues resulting from food preparation from the sink, using a detergent or surface cleaner. If necessary, use a mild abrasive cleaning pad or sponge.

Fill the sink with diluted household bleach (25% bleach and 75% water) and leave for ½ hour. Afterwards, rinse thoroughly – you should have a beautifully clean sink, with very little effort.
6. CORIAN (CONT.)

6.2. Cleaning

PREVENTING HEAT AND OTHER DAMAGE
It is important to minimize direct heat exposure to protect your Corian® surface. Always use a heat protection pad, trivet (with rubber feet) or protective sink mat for hot cookware, or leave cookware to cool on the hob first. Never put hot pans, particularly cast iron pans, directly onto a DuPont® Corian® top or in a Corian® sink. Always use the correct size pan on the hob and place it centrally on the ring.
An overhanging pan can scorch the surrounding surface.
As with most sinks, pouring boiling liquids directly into a DuPont® Corian® sink without running cold water at the same time may damage the material. If you have an instant boiling water tap, a container should always be used to collect the water as boiling water from this type of tap may cause surface damage in and around the sink.
Do not cut directly on Corian® surfaces. Use a chopping board.

Bathroom applications
DAILY MAINTENANCE OF WASH BASINS, SHOWER TRAYS AND BATHTUBS
Simply clean the surface with soapy water or any common detergent in order to remove most of the stains and dirt that may be deposited. Gel or creamy detergents are particularly recommended, together with a mild abrasive cleaning pad or sponge, ensuring that you rinse the treated area properly.
By doing this, the original matt finish will be maintained. Some substances such as inks, cosmetics and dyes may release colour onto the surface after extended contact with the surface.
All of these can easily be removed by following the special instructions for stubborn stains.

ATTENTION
Shower trays and bathtubs cannot be used autonomously by people with reduced motor skills, or with sensory and/or cognitive impairments (including children).
For your personal safety, use them at a maximum water temperature of 40°C.
Avoid using them in the vicinity or while using electrical appliances.
Pay special attention when using shower trays and bathtubs alone or after taking medicines.

Guaranteed Quality
With proper care, your Corian® surface will stay looking like new. Your DuPont® Corian® surface carries a Limited Installed Warranty when fabrication and installation are carried out by a Corian® Industrial Partner and member of the Corian® Quality Network. If you decide to sell your home, your warranty is transferable to the new owners.
For complete details, go to our website (www.corian.com) to review the warranty guidelines applicable for your product.
