

Packaging and brand modification

Datum: 01-2020

Onderwerp: Packaging modification and brand modification

Referenties: LG-350535 > CM-350535

Reason why

Up today, items were delivered in a bag of 2 pieces for 1 reference but it creates some misunderstanding on the quantity sold to the customers. Thus in order to clarify the situation, the current packaging of the item has been changed.

Before we had:

LG-350535 = 2 items per bag

Now, you have since the 14th of January 2020:

CM-350535 = 1 item per bag

In order to clarify the use of Cablofil dedicated product, the reference 350535 is moving from the LEGRAND brand to CABLOFIL brand. Thus LG-350535 becomes CM-350535.

Please consider this information during the upgrade of yours catalogs in 2020.

Product Info are now available on Yammer
